

INTRODUCTION

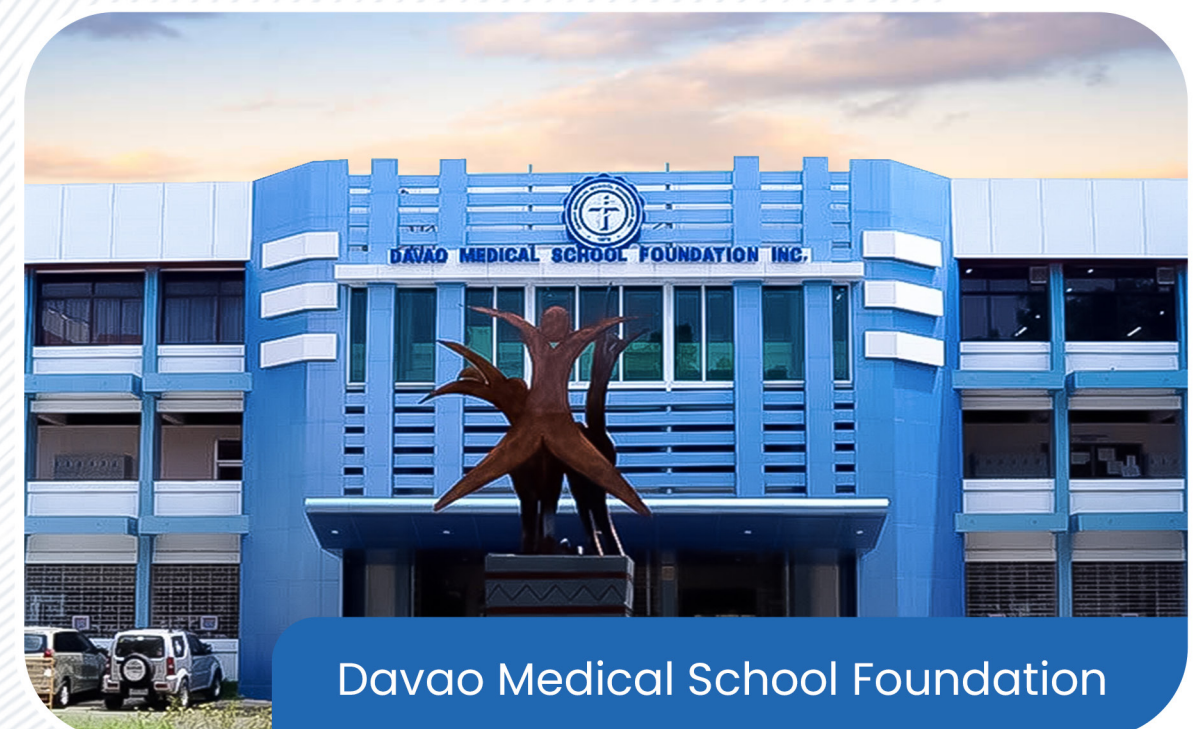

Transforming society through the power of medical education is a noble pursuit, and Dr. David K Pillai has taken on this mission with passion and dedication. With the belief that education is the key to a healthier world, he has embarked on a journey to empower individuals and make a positive impact on society. His vision is to create a better tomorrow through the gift of medical education. His passion for uplifting lives has propelled him to establish world-class institutions that are synonymous with excellence and innovation. With the establishment of Transworld Educare, Kings International Medical Academy and other prestigious institutions, his legacy continues to inspire and make a difference. The notable affiliation of these academies with Davao Medical School Foundation further demonstrates their commitment to delivering top-notch medical education.

Davao Medical School Foundation

MBBS Program in India

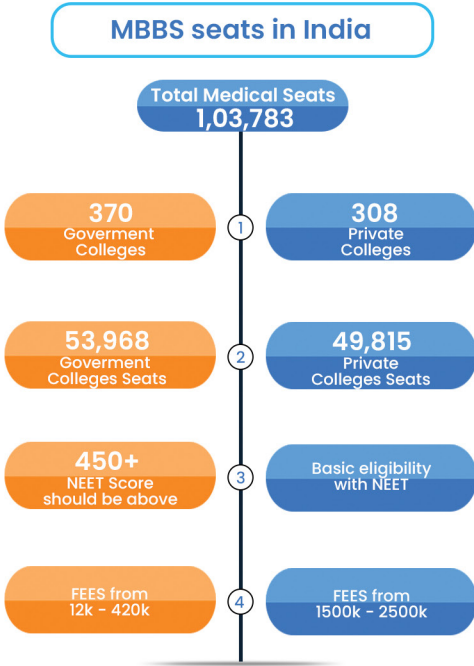

In India, the most popular career choices for children are engineering and medicine as per their parents' aspirations. However, the scope for engineering as a profession has diminished due to the large number of engineering colleges. On the other hand, there is a growing demand for doctors in many countries, including India. The World Health Organization (WHO) estimates that India will need an additional 4 lakh doctors by 2025.

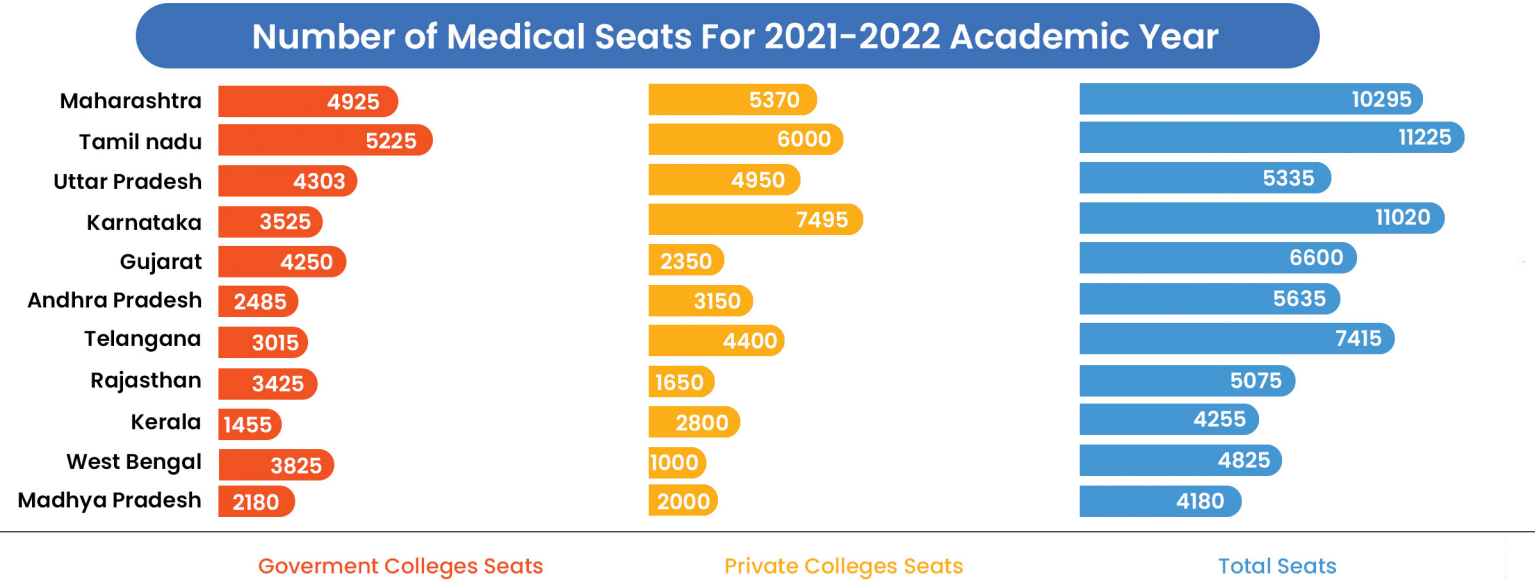

Eligibility and Admission Requirements

What is the process for getting admission into the MBBS program?

- Students who wish to pursue an MBBS program in India must have completed their 12th education with Physics, Chemistry & Biology and obtained a minimum of 50% marks (40% for reserved categories).
- The age eligibility criteria is between 17 to 25 years.
- Students are required to take the NEET-UG exam, a national-level common entrance exam, in addition to meeting the educational qualifications to be considered for admission into the MBBS program.
- Since 2016, state-level or university-level exams are prohibited for admission to MBBS and BDS courses by the Supreme Court.
- Admission to MBBS courses in India is now solely based on the NEET exam.

The National Eligibility cum Entrance Test (NEET) is an all India pre-medical entrance test for students who wish to pursue MBBS & BDS in India. The exam is conducted by National Testing Agency (NTA). The National Board of Examination (NBE) conducts other medical exams such as NEET-SS and NEET-PG as a computer-based test (CBT) in collaboration with Prometric Testing Pvt Ltd headquartered in the USA. NEET-UG has replaced All India Pre-Medical Test (AIPMT) and the individual MBBS exams that were previously conducted by states or universities.

The Growing Demand for Doctors in Today's World

Current Demand and Situation

According to the statistics of NMC, there are approximately 9.36 lakh doctors in India, which comes to about 5 doctors per 10,000 people, including a significant number of inactive doctors. The World Health Organization (WHO) recommends 10 doctors for every 10,000 people and even with the inclusion of inactive doctors, there is still a small gap of 2.6 doctors per 10,000 people in India. However, considering the size of the population, this amounts to a shortage of 3.3 lakh doctors just to meet conservative guidelines on paper, let alone exceed them. In comparison, China has almost double the ratio of doctors to people than India, and most developed countries have a ratio greater than 20 doctors per 10,000 people. Meanwhile, the All India Council of Technical Education (AICTE) plans to reduce the number of engineering seats from 16.7 lakhs to around 10-11 lakhs. Ironically, even after the reduction in seats, India will still produce more engineers every year than the total number of doctors.

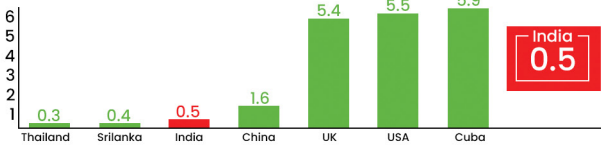

In-Demand Speciality Doctors in India

Specialist doctors are in high demand in India, as 9 out of the top 10 causes of death, including heart attacks, strokes and diarrheal diseases, require doctors with post-graduate qualifications to treat them effectively. Due to strict regulations from the NMC, doctors without post-graduate qualifications are unable to treat these diseases.

Shortage of:

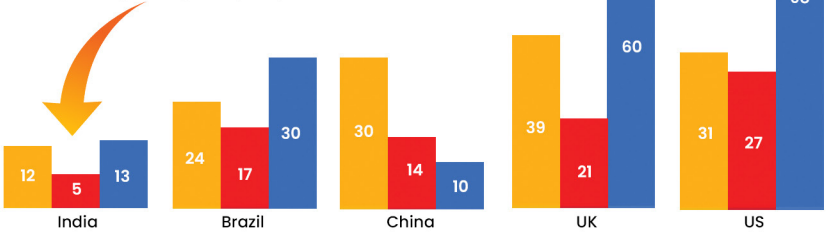

Doctors Population Ratio (Per 1000 Population)

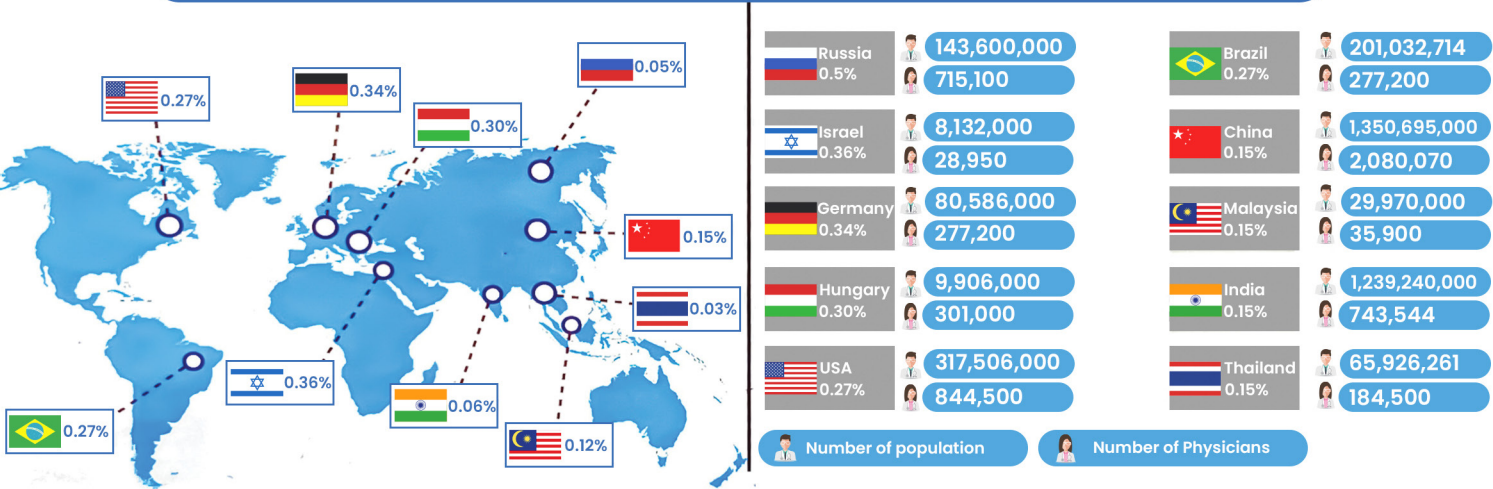

Hospital Beds, Doctors & Nurses per 10,000 People

Just 12 Beds, 5 Doctors and 13 Nurses per 10,000 people

Physicians to Population ratio in selected countries

DEAN SPEAKS

Warmest greetings from Davao Medical School Foundation, Inc.!

It is our pleasure to welcome you all to the best medical school for international students who want to be the best doctor of the twenty-first century. The Davao Medical School Foundation, Inc. is a level 2 accredited medical school of the Philippine Accrediting Association of Schools, Colleges and Universities (PAASCU) which is recognized by the Federation of Accrediting Agencies of the Philippines.

This recognition is because of the following reasons:

Consistent top performance in both Philippine medical licensure examinations and foreign medical graduate's examination;

Its instructional facilities are world class - from classrooms, to basic and clinical simulation laboratories, libraries and soon, a modern medical museum;

A home-grown Learning management system (LMS) called iLEARN@DMSFI, which is customized for digitally-adept international students, thus making e-learning fun and effective;

Our faculty members are competent, committed and dedicated, who don't only teach the art and science of Medicine, but most of all, take time to nurture the spiritual, emotional and mental health of students;

In light of the above, we invite you to visit our school and see for yourselves why DMSFI is the best school for your children.

Dr. Erwin Hontiveros
Dean, DMSFI

CHAIRMAN SPEAKS

Transworld Educare and Kings International Medical Academy are where knowledge reigns supreme. Welcome to the premier residential coaching institutes which puts every effort to train young medical aspirants and educate them to deliver the highest standards of healthcare service. While medical study isn't a cakewalk, we have strived to design a stimulating curriculum that eases the journey from being dedicated students to proficient doctors.

We groom each student academically and socially so that they become exceptionally qualified doctors. Endeavouring for the same, we have associated with Davao Medical School Foundation to bring in the tremendous responsibility of pursuing MBBS in Philippines. This is also an opportunity for us to take up the challenge and drive our Indian students to the global medical field.

At these institutes, aspirants receive the best quality NEET and FMGE training from an illustrious faculty. Believe us, it's not easy to consistently rank with the highest passing percentage in these challenging medical competitive exams. To help our students fetch such scores, we offer all the necessary and latest amenities that will harness their fullest potential in making their dreams come true.

All we need is commitment and dedication of the students. With all the arrangements ready for you, it's time you take the giant leap!

All the best!

Dr. David K Pillai
Chairman

THE PHILIPPINES

A Thriving Hub for Medical Education

The Philippines is an archipelagic country in Southeast Asia known for its stunning beaches, vibrant culture, and warm hospitality. Renowned for its world-class facilities and exceptional education, the Philippines is a highly sought-after destination for pursuing medical education with a multitude of prestigious medical colleges. Many Indian students choose to pursue their medical degrees in the Philippines due to the affordable fees and excellent career opportunities. The Philippines is an English-speaking country that offers easy travel and currency exchange, with a similar climate and disease spectrum as India, making it a convenient destination for Indian students compared to other countries.

Davao City

**The Premier Destination for
World-Class Medical Education
in the Southern Philippines**

Davao City is a dynamic metropolis located in the southern region of the Philippines, known for its bustling city life and breath-taking natural scenery. Davao City is considered as one of the safest cities in the Philippines, making it an ideal destination for the students seeking a secure and peaceful environment for their studies. The city is also recognized for its top-class medical facilities which offers premium medical education to students from around the world. Davao City is a thriving urban centre that offers students a unique blend of modernity and nature, as well as a safe and comfortable environment for learning and growth. Davao Medical School Foundation (DMSF) is located in such a magnificent city. Davao City has a few medical colleges and DMSF is the top choice. It's worth noting that Davao Medical Hospital is the largest hospital in the city, which is quite impressive.

“**Davao Medical School Foundation**”

Pioneering Quality Medical Education in Davao City

Davao Medical School Foundation (DMSF) was established in 1976 by a group of physicians in Davao City, Philippines. The founders aimed to address the shortage of healthcare professionals in the region and to provide outstanding medical education to students from the Philippines and around the world. Since its establishment, DMSF has become one of the leading medical schools in the Philippines, offering an exceptional medical education program that combines theoretical knowledge with extensive clinical training. DMSF has consistently maintained its exceptional track record of achieving the highest passing percentage in FMGE results every year, with an impressive overall success rate of 85%.

MBBS (MD) PROGRAM

The MD (Doctor of Medicine) program at DMSF is considered equivalent to the MBBS degree in India. Davao Medical School Foundation (DMSF) offers MD course (4.5 years + Internship) that is recognized by The National Medical Commission (NMC) and the World Health Organization (WHO). The program is designed to equip students with the necessary knowledge and skills to become competent medical professionals. The curriculum is comprehensive and includes both theoretical and practical training. Students also have the opportunity to gain hands-on experience by participating in clinical rotations at DMSF's affiliated hospitals. The MD course at DMSF is taught by experienced faculty members who are committed to providing exquisite education to the students.

What makes DMSF a trustworthy choice for Indian students?

Studying MBBS in India has become difficult due to NEET exam cut-off marks, high fees and donations, leading to many students considering studying abroad. Passing the NEET exam and getting 50% in PCB subjects are the only requirements for joining DMSF and there is no need to worry about meeting any cut-off marks in NEET. However, studying abroad can be a daunting experience with the differences in food, climate, and culture. The Philippines provides a comfortable destination that feels like home, with DMSF being the top choice for medical education. Additionally, studying in DMSF offers numerous advantages.

Top 10 Reasons why DMSF is an Ideal Destination

- English-Medium Education
- Globally Recognized Curriculum
- American Influence on Education System
- High-Quality & Low-cost
- No Donation or Capitation Fee
- High pass-percentage on FMGE & PLE results
- Internationally Accredited Medical School
- Wide Range of Clinical Exposure
- Excellent Accommodation Facilities
- Good Safety Record

ACCREDITATIONS

Davao Medical School Foundation (DMSF) has earned numerous global accreditations, which further established its reputation as a leading institution for medical education.

- World Health Organization (WHO)
- National Medical Commission (NMC)
- Educational Commission for Foreign Medical Graduates (ECFMG)
- The Foundation for Advancement of International Medical Education and Research (FAIMER)
- Philippines Accrediting Association of Schools, Colleges & Universities (PAASCU)- Level II

AFFILIATED HOSPITALS

Davao Medical School Foundation (DMSF) has established robust partnerships with numerous hospitals and medical centres in Davao City. Through these affiliations, students gain exposure to a diverse range of clinical settings and practical experiences.

DAVAO DOCTORS HOSPITAL

BROKENSHIRE HOSPITAL

SOUTHERN PHILIPPINES MEDICAL CENTER

SAN PEDRO HOSPITAL

The Southern Philippines Medical Center is equipped with 4000 beds and Davao Medical Hospital has 1000 beds. Altogether, there are 6000 beds in these hospitals.

THE STATE-OF-THE-ART FACILITIES

Spread over 28,000 square meters, the campus boasts state-of-the-art lecture halls, fully-equipped laboratories, spacious auditoriums, and a dedicated dissection hall. With cutting-edge technologies and personalized comforts, every corner of the campus has been designed to facilitate a seamless learning experience. The campus also includes a sprawling hospital, covering an area of 10,000 square meters.

ADVANCED LEARNING RESOURCES AT DMSF

Simulation Mannequins Stations

DMSF is the first medical college in all of the Philippines and the second college in Asia to set up Simulation Mannequins Stations. These mannequins mimic real-life medical situations, allowing students to practice a variety of procedures and techniques, such as CPR, intubation, and IV insertion. With simulation mannequin stations, students can experience a realistic clinical setting that prepares them for the challenges of real-world patient care.

Virtual Reality Anatomy

With VR Anatomy, students can explore the human body in a highly detailed and interactive 3D environment, providing a unique and immersive learning experience. The technology allows students to visualize complex anatomical structures and systems with incredible accuracy and depth, providing a deeper understanding of the human body.

3D Anatomage & Cadavers

DMSF was the first college in the Philippines to install 3D Anatomage Table System. 3D Anatomage is an advanced medical visualization technology that uses high-resolution, 3D imaging to create interactive models of the human body for education and clinical practice. DMSF has four 3D Anatomage Tables. This allows students to study the intricacies of the human body through a 3D virtual platform that replicates real-life scenarios.

Cadavers are deceased human bodies that are donated for medical education and research purposes. They are utilized to teach anatomy to medical students and to help doctors understand the complexities of the human body. The use of cadavers is considered crucial in advancing medical knowledge and improving patient care.

Plastinated Models

Plastinated models are preserved human bodies that have been treated with a special technique called Plastination, which replaces bodily fluids and fats with plastic. At DMSF, students have access to a wide range of Plastinated models, which provide a highly realistic representation of the human body and its various systems.

Plastinated models are human bodies that have undergone plastination, a process of preserving biological tissue by replacing fluids and fats with plastic. At Davao Medical School Foundation, students have access to a range of plastinated models that provide a highly accurate and detailed representation of the human body and its various systems. These models offer an excellent tool for medical education, allowing students to study the anatomy and physiology of the human body in a hands-on and interactive way. The use of plastinated models at DMSF reflects the school's commitment to providing students with the best possible learning experience and preparing them to become skilled and compassionate healthcare professionals.

THE MODERN AND WELL-EQUIPPED LIBRARY

TEAM LEARNING CENTER

DMSF offers not one but two technologically advanced libraries with thousands and thousands of medical study materials and bibliographic citations. In addition, students can access international journals, research materials and published papers via the E-Library facility. The libraries operate using a standard automation system for easy data retrieval, making it the ideal environment for students pursuing an MBBS degree abroad.

Team Learning Centre at Davao Medical School Foundation is a collaborative space that fosters group study and peer-to-peer teaching among students. It provides a comfortable and supportive environment for the students to work together, share knowledge, and learn from each other.

HOSTEL FACILITIES

DMSF provides dedicated hostel facilities for International and Indian students with separate arrangements for boys and girls. The hostels are fully air-conditioned and feature single, double, and triple occupancy rooms. Each hostel has a warden to ensure complete safety and constant monitoring. The facilities also include separate mess, dining halls, visiting halls, and parking spots. There are Indian staff members dedicated to taking care of Indian students. Indian cuisine is also available especially for the Indian students. With these amenities, students can feel at home and focus on their studies.

DISCOVER TRANSWORLD EDUCARE:

YOUR GATEWAY TO EDUCATIONAL EXCELLENCE IN
THE HEART OF PUNE, MAHARASHTRA

PUNE, MAHARASHTRA

A city with rich history of academic excellence

Pune is a city located in the western Indian state of Maharashtra. The city is home to numerous educational institutions, including some of the top universities and colleges in India. Pune is a lively city with a unique blend of tradition and modernity, making it an exciting place to live, work, and study.

Transworld Educare was established in 1999 in Pune, Maharashtra. Transworld Educare is revolutionizing the education sector by providing Indian students an unparalleled chance to fulfill their aspirations of pursuing medical studies overseas.

TRANSWORLD EDUCARE

The first to introduce the Philippines as a top MBBS study destination

The academy has introduced the Philippines as the perfect destination for medical education, providing students with an excellent platform to gain international exposure and an edge in the competitive field of medicine. With a team of expert professionals, Transworld Educare has made the admission process easy and hassle-free for aspiring medical students, providing them with personalized guidance and assistance every step of the way.

Transworld Educare has established partnership with Davao Medical School Foundation (DMSF), one of the top medical schools in the Philippines, ensuring that students receive world-class education. With our assistance, over 8000 Indian students have accomplished their MBBS degrees from DMSF and are currently working as doctors in various government and private hospitals.

NEET & FMGE

NEET (National Eligibility cum Entrance Test) and FMGE (Foreign Medical Graduate Examination) are crucial exams for aspiring medical students in India. NEET is the entrance exam for admission to medical colleges in India, while FMGE is the licensing exam for graduates of foreign medical schools to practice in India. Success in these exams is essential for pursuing a career in medicine and becoming a licensed medical practitioner in India. Transworld Educare offers NEET and FMGE coaching for aspiring medical students to help them achieve their dream of becoming doctors.

EMPOWERING STUDENTS WITH TOP-CLASS FACILITIES

Transworld Educare is committed to providing its students with the best possible learning experience. As part of this commitment, it has invested in top-class facilities including Simulation Mannequins, Museum, Bio-Chemistry Lab, Specimen Observatory, Anatomy Hall and many more. Equipped with the latest technology, smart classrooms at Transworld Educare feature high-resolution displays, high-quality audio systems and other tools to enhance the learning experience.

Transworld Educare has an impressive infrastructure. The grandeur of the main lobby is a sight to behold while the spacious Auditorium gallery is perfect for hosting events and guest lectures. The Library at Transworld Educare houses a vast collection of academic resources, including books, journals, and reference materials, to cater to the diverse academic needs of students. In addition, students can stay fit and healthy by utilizing the in-campus Gym and Badminton court which are open for use at any time. At Transworld Educare, we believe in nurturing both the mind and body of our students.

In addition to the awe-inspiring infrastructure, Transworld Educare also provides impeccable amenities to its students, including separate hostels for boys and girls as well as gender-segregated cafeterias.

GARDEN: The Serene Oasis

Transworld Educare's campus is designed to provide students with a relaxing and healthy atmosphere, including a serene garden that promotes stress-free learning. The campus encourages positive and supportive interactions among students, fostering emotional security and well-being.

AFFILIATED INSTITUTIONS

St. Andrews College of Nursing

St. Andrews College of Physiotherapy

N. M. Wadia Hospital

Apart from Transworld Educare, Dr. David K Pillai has also founded several institutions and academies, and has associated himself with numerous educational organizations and institutions. These include St. Andrews Education Foundation, St. Andrews College of Nursing, St. Andrews College of Physiotherapy, N. M. Wadia Hospital, Poona Christian Medical Association, All Saints High School and Kings International Medical Academy.

Embark on a journey of medical excellence with Kings International Medical Academy: Located in the picturesque Mahabalipuram, Tamil Nadu

Our medical campus is located in Tamil Nadu. It is a state where health is highly prioritized. It is regarded as India's "Health Capital". Tamil Nadu is a southern state in India that is known for its rich cultural heritage, traditions and distinct identity. It shelters some of the most esteemed universities and research institutes in India, paving the way for advanced research and innovation. The state is also renowned for several top-notch hospitals and medical research institutions at the global level.

Bridging Modern Medical Education with Historic Mahabalipuram

Mahabalipuram, also known as 'Mamallapuram', is a historic town located in the southern Indian state of Tamil Nadu. The town is famous for its UNESCO World Heritage listed group of monuments, including ancient temples, rock-cut caves, and sculptures. Mahabalipuram is also known for its beautiful beaches, which offer striking views of the Bay of Bengal. Kings International Medical Academy is situated in such historic town of Mahabalipuram.

Step into the world of Architectural Brilliance

Kings International Medical Academy in Mahabalipuram is not just a medical institution but a mesmerizing architectural marvel. From its blend of contemporary and traditional design to its picturesque fountains and gardens, the campus is a treat for the eyes.

The campus is adorned with grand statues of Thiruvalluvar and Agathiyar, paying homage to the rich medical history of Tamil Nadu. The lush-green gardens and tranquil fountains provide the perfect setting for students to study and grow. The campus truly offers a world-class environment for learning and development.

KINGS: The Regal Choice for Medical Education

Kings International Medical Academy (KIMA) is a highly reputed and prestigious medical academy situated in the charming coastal town of Mahabalipuram. The academy is renowned for its modern facilities and esteemed faculty who are dedicated to providing their students with complete education and training.

What KINGS Offers?

Kings International Medical Academy offers three kind of services:

NEET-UG

MBBS (MD)
in the Philippines

FMGE

How KINGS assists you to join in DMSF?

Along with Transworld Educare, Kings International Medical Academy also helps students to join in DMSF. Kings International Medical Academy places a high priority on ensuring the convenience of students to make their journey towards achieving their dreams smoother.

As a result, Kings provides comprehensive support for visa applications, ticket bookings and other related arrangements. The assistance includes:

- Free counselling for the right career
- Admission guidance
- Visa assistance
- Assistance with documentation
- Currency exchange
- Travel assistance
- Post departure assistance

NEET & FMGE success guaranteed with our world-class faculty

Kings International Medical Academy takes pride in having an exceptional team of renowned faculties for NEET and FMGE, who provide in-depth guidance to students on the exam syllabus, pattern and time management techniques. When it comes to FMGE, Kings International Medical Academy brings in top-class doctors in India as faculties for the students. Among them are distinguished names such as Dr. Deepak Marwah, Dr. Siraj Ahmed, Dr. Malcolm Pinto, Dr. Singaram, Dr. V.S.Kumar, Dr. Sanjay Agarwal, Dr. Nikitha Nanwani, and Dr. Ashwani Ranjan, to name a few.

Unparalleled facilities at KINGS

Kings International Medical Academy boasts a top-of-the-line infrastructure that provides students with access to the latest technology and resources. The smart classrooms are equipped with audio-visual enhancements and modern teaching aids to make the learning process more interactive and effective. Students have round-the-clock access to Wi-Fi, enabling them to use it for reference purposes at any time.

Laboratories for Hands-on Practice

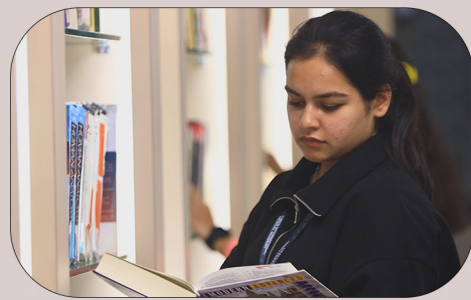

The labs are designed to meet the needs of our students and provide them with hands on experience to complement their theoretical knowledge. Equipped with high-tech equipment and technology, the labs enable students to conduct experiments and research to develop their skills and deepen their understanding of their subject.

Study Halls & Ultra-modern Library

Kings International Medical Academy offers separate study halls for the students. The study room provides a distraction-free environment to help students focus better. The study halls have individual cubicles, providing students with privacy to study without getting disturbed. This facility enables students to concentrate on their studies and achieve their academic goals.

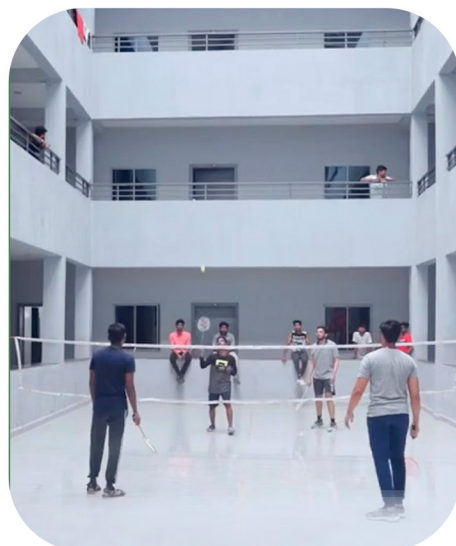

Kings International Medical Academy also provides access to a wide-ranging library and resource centre that has a colossal collection of books and online resources, ensuring that our students have access to the latest research and developments in their field of study.

RESIDENTIAL CAMPUS

Kings International Medical Academy is India's No.1 residential campus. The hostel at Kings prioritize cleanliness before everything and it offers:

- Separate and safe hostels for boys and girls
- Air-conditioned rooms
- Prioritize cleanliness and hygiene
- Can opt for double share rooms or quadruple rooms
- Water-heater facilities
- 24/7 CCTV camera surveillance at the corridors
- Emergency unit
- Fire extinguishers for safety purposes
- Wi-Fi facility
- Play areas to relieve stress

CSR ACTIVITIES

Kings International Medical Academy holds the belief that it is important to give back to the society that has contributed to its growth and progress. Kings International Medical Academy undertakes various CSR initiatives, one of which involves students visiting rural areas and engaging with the local community. Kings also organizes awareness programs and rallies aimed at creating a positive impact in society. Kings International Medical Academy believes in not just producing excellent medical professionals but also in creating socially responsible citizens.

Voices of Success: Student Testimonials That Inspire

“

Thank you DMSF for proving me with clinical rotation diluting my medicine course with this experience till this date. I was able to handle most of the cases in hospital and also having the most friendly doctors as our faculties to make medicine enjoyable and knowledgeable.

Dr. Gokul

“

My journey in DMSF is indeed very memorable. The 4 years spent in this college made me realise my true potential. I whole heartedly thank all the doctors in DMSF who guided me in following the correct path and inspiring to choose a dream branch. The clinical exposure that the college provided helped understand a lot of things better. Apart from academics, it also shaped my personality making me a better doctor.

Dr. Soheeta Krishnan

“

DMSF is one the best medical colleges with the best faculties and environment that makes students study better. It has been powered with latest technology and equipments to make us understand and study better in every angle. Staff are well-skilled and friendly which makes students to have a great interactive class.

Dr. Varunbabu

“

I wasn't prepared to study away from home, that too abroad. But, DMSF prepared me for life. It was not just about the medicine course, it was a wholesome experience. Today I am a doctor, though a fresher, but highly experienced in handling diversity.

Dr. Amritha

“

I would like to thank my alma mater, DMSF, the place that made my dream come true to become a doctor. The clinical rotations we did in DMSF is helping me till now during my practice in India. Salamat DMSF!

Dr. Mithurashini

“

DMSF is one of the unforgettable places in my life. The staff and the people of the city and the experience that I got are invaluable. It is the place that made me a confident doctor. I will always be grateful to DMSF and Davao city.

CEO SPEAKS

“

”

Mr. Kadwin K Pillai
CEO of Transworld Educare &
Kings International Medical Academy

“ Welcome to Transworld Educare and Kings International Medical Academy—your ship to embark on the voyage of becoming a doctor. Let us be practical! The journey from an aspiring student to a proficient medical practitioner is no smooth ride. Extensive learning, sleepless nights, continual hands-on training, regular mock tests and so on—it's a rigorous phase. And what awaits at the end of all is a prosperous career with no looking back. ”
